- ✓ Multigrow Windowsill Greenhouse
- ✓ Seed Tray

JIFFY PRODUCT RANGE USP's -

- ✓ Made from a sustainable peat source
- ✓ Allow plant roots to naturally air prune as they emerge through the pot.
- ✓ Greater root development and aeration in the root zone.
- ✓ Reduces transplant shock as well as grow plants with a more natural root system
- ✓ Healthy roots promotes a faster start
- ✓ No waste
- ✓ 100% biodegradable
- ✓ Earth-friendly and non-toxic.
- ✓ Approved for organic production
- ✓ Economical alternatives to plastic.

JIFFY POTS

The pots are pre formed ready for you to fill with compost and plant your seedlings in the usual way .Slots at the base of the pot allow the roots to spread out for healthy growth. When ready to plant out the pot goes into the ground along with your plant, so your plants continue to grow undisturbed, helping to produce stronger, faster growth than you'd get when you transplant from a conventional pot into your garden .By the end of the growing season the pot will have almost totally degraded and your plant will have had the benefit of the goodness from the pot

Unique properties

- ✓ Jiffy Pots are 100% degradable and approved for organic production.
- ✓ Jiffy bio-products are earth-friendly, non-toxic.
- ✓ Economical alternatives to plastic.
- ✓ Made from at least 50% sphagnum, together with recycled paper and basic nutrients to aid plant growth

JIFFY STRIPS

Jiffy peat strips are an easy-to-use product that makes your planting faster. The Jiffy peat strips enable you to plant the entire peat strip in the garden which saves time when transplanting your plants. The peat content provides a combination of superior root penetration, good drainage and aeration whilst the wood fibers strengthen the pot.

Unique properties

- ✓ Jiffy Strips are 100% degradable and approved for organic production.
- ✓ Jiffy bio-products are earth-friendly, non-toxic.
- ✓ Economical alternatives to plastic.
- ✓ Made from at least 50% sphagnum, together with recycled paper and basic nutrients to aid plant growth

Technical Information Sheet

<p><u>JIFFY STARTER SET</u></p> 	<p>The Jiffy Starter set consists of 14 jiffy pots and 14 Quick Soil Mix for the perfect start to growing seeds.</p>	<p>Unique properties</p> <ul style="list-style-type: none"> ✓ Economical alternatives to plastic. ✓ Made from at least 50% sphagnum, together with recycled paper and basic nutrients to aid plant growth. ✓ Each QSM pellet expands to fill a 2.25 inch pot. ✓ Designed for the special pH and nutrients needs of today's new seed and plant varieties.
