

# HydroGrow

Suppliers of Hydroponic Systems

HydroGrow HYDROPONIC Systems are the ideal solution for growing your own supply of fresh produce, at a fraction of the cost, time & effort.

- RURAL GAME LODGES
- BED & BREAKFASTS
- HOTELS & RESTAURANTS
- SPAS & WELLNESS CENTRES
- AGRICULTURAL COLLEGES
- DISABLED & RETIREMENT HOMES
- AT HOME OUTSIDE THE KITCHEN
- COMMUNITY FEEDING PROGRAMS

*“Grow your own”*

## Join the “Green Revolution”

- Specifically designed to save water, nutrients and energy. Recycled water and nutrients by a solar pump, produces the greenest greens.
- The results from either our 2 x 1 metre Hydro Home Table or our high yield 1000 square metre Commercial System will not only save money, but will allow you to bring the freshest and most nutritional produce to the table.
- Low maintenance, low labour.
- No transport costs or delivery problems. Right at your own fingertips.
- Grow your own - lettuce, tomatoes, spinach, celery, broccoli, cabbage, peppers, spring onions, strawberries, most herbs & cut flowers and many other varieties.
- Use / cut only what you need. No waste.
- Perfect for community feeding projects.
- System pays for itself within 6 to 12 months.
- Your Food & Beverage Manager and your Chef will be delighted at the vast improvements to their menu.
- There is no excuse to complain about expensive and inferior fresh produce, *the solution is available!*
